CLASS DESCRIPTIONS

Twin Rivers YMCA

Cardio

BODYATTACK™ caters to anyone, using instructor-led options. It combines athletic movements like running, lunging and jumping with strength exercises such as push-ups and squats. This class is for anyone who wants to feel like an athlete in awesome team environment.

Cycling improve your cardiovascular fitness in this high-energy class. Class can consist of interval work, hill climbs, flat road drills, along with other terrain. All fitness levels welcome. Bring a towel and a water bottle.

Zumba mixes low intensity and high intensity moves for an interval style, calorie burning dance fitness party. Much of the music used in the class is Latin- rhythm inspired.

Strength

BODYPUMP™ is a barbell class based on THE REP EFFECT™, a proven formula that exhausts muscles using light weights and high repetitions to sculpt, tone and strengthen the entire body. Instructors will coach participants through the scientifically proven moves and techniques, pumping out encouragement, motivation and great movement.

Core & More focuses on strengthening the abdominals, back, and gluteal muscles using a variety of equipment. This class will help to improve posture and assist with improved functioning for a healthy lifestyle.

Combo

Circuit combines upper and lower body strength moves with cardiovascular work to keep your heart rate up. This fun, challenging class is designed for all fitness levels.

H.I.I.T. High Intensity Interval Training has participants working through challenging cardio intervals while actively recovering with strength moves.

Kickboxing combines elements of martial arts with athletic drills to create a fun, high-energy workout. This class will leave you feeling sweaty and stronger.

Ultimate Strength and Cardio participants can expect intervals of high intensity cardio and strength training to create a fitness training experience. This class will improve participants overall fitness, agility, speed and athleticism in this high intensity class. Modifications can be made for all fitness levels.

Mind/Body

Yoga builds a strong body, mind and spirit. This class incorporates yoga postures, breathing exercises and a mind focus to improve balance, strength and flexibility. Restorative breathing exercises and final relaxation will promote stress reduction and mental clarity.

Active Older Adults

Low-Impact Cardio Strength allows participants to improve their strength and cardiovascular systems. Participants will increase their heart rates with high energy, low impact aerobics moves, and strengthen their muscles through the use of resistance tubing, dumbbells or their bodyweight.

SilverSneakers® Classic participants move to the music through a variety of exercises designed to increase strength and range of motion. Hand held weights, elastic tubing with handles and a SilverSneakers ball are offered for resistance. A chair is used for support.

Aqua

Aquacise is a low-impact class emphasizing cardiovascular fitness, muscle endurance, and flexibility at a moderate level. Participants need to be comfortable in the water but will not be working in the deep end (use of balls, pool noodles and/or water weights).

Aqua Restore focuses on restoring movement and joint stability in the aquatic environment.

Aqua Zumba blends the fun of a Zumba® class with the low-impact environment of the water to create a fun, high-energy class.
